Experienced React Developer with a passion for crafting dynamic and efficient user interfaces. With 2 years of hands-on experience in front-end web development, I excel in creating responsive and engaging web applications. I possess a strong foundation in JavaScript, React, and related libraries, enabling me to build robust and scalable UI components.

📁 Professional Experience

Associate Consultant, Atos

12/2019 – 12/2022

Pune, India

- **Front-End Development:** Proficient in developing interactive and visually appealing user interfaces using React, HTML5, and CSS3.
- **React Expertise:** Deep understanding of React concepts including component lifecycle, hooks, state management, Redux and virtual DOM manipulation.
- **Responsive Design:** Skilled in creating responsive designs that deliver consistent user experiences across various devices and screen sizes.
- **JavaScript:** Strong command over core JavaScript concepts and ES6+ features, enabling the development of efficient and performant code.
- **Version Control:** Experienced in using Git and GitHub for collaborative and version-controlled development workflows.
- **UI/UX Principles:** Familiarity with user-centered design principles to create intuitive and seamless user experiences.

📁 Projects

Workout Tracker, MERN application [🔗](#)

A web application created using the MERN stack allows users to create, track, and manage their work out details. It features a user-friendly interface for workout creation, a database for storing workout data.
